

**REFRIGERATED TRAILERS**

**We're With You Every  
*Degree* Of The Way**

## ABOUT LEER

Through decades of commitment to product development, customer service and a relentless focus on American-made manufacturing excellence, Leer has continued to shape and drive innovation in the temperature-controlled storage industry. We're dedicated to the success of all our customers — be that customers of our iconic white Ice Merchandisers, Ice Vending Machines, Refrigerated Transports, Reach-In Storage Freezers, or our custom-built Walk-In Coolers & Freezers.

We'd be honored to earn your business and become your trusted partner in temperature-controlled storage solutions. When you buy from Leer, you're not just buying our products but a commitment from all of us and that's a promise to be with you every degree of the way. We're confident our products provide a value that cannot be beaten.

## OUR MISSION

- To be your trusted partner in temperature-controlled storage solutions.
- To partner with our customers to design and develop the highest quality, innovative, temperature-controlled storage solutions to meet their ever-changing needs.
- To provide our customers exceptional quality and outstanding customer service at every stage of every interaction.
- To train and support all employee owners to produce products they can proudly label Made-In-The-USA.
- To promote safe and healthy work practices and environments that benefit all.

## WHEN YOU BUY FROM LEER

- You have our lifetime support - we're with you every degree of the way.
- We're dedicated to delivering our products right the first time, right every time.
- Our products are intelligent-by-design because we know every degree matters.
- We're 100% employee owned - those employee owners make a distinctive difference because you have the commitment of not just one owner, but hundreds of owners.
- We have decades of commitment to product development and customer service with a relentless focus on manufacturing quality from America's heartland.

## OUR VISION

We will exceed the highest expectations of our customers, employee owners, partners, shareholders and community by continually delivering the best possible American-made products. We're with you every *degree* of the way.

## WE VALUE

- Building Trust
- Wowing Customers
- Constantly Improving
- Working Together
- Embracing Ownership

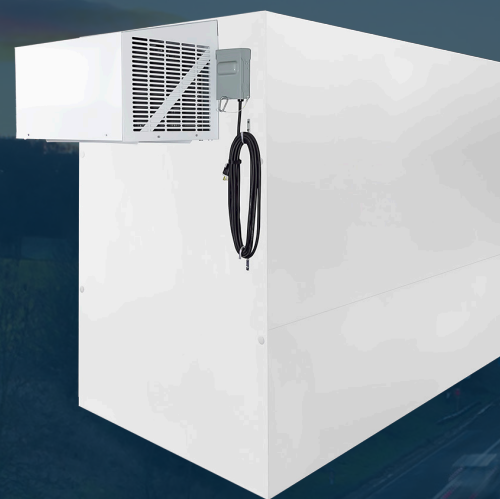

## WE BELIEVE

- All stakeholders are valuable partners in delivering our vision and executing our mission, and are invested in doing both.
- In best intentions at all times, and taking a commonsense and practical path to address differences.

## OUR FAMILY

We're a proud member of Employee Owned Brands, Inc. (eobrand.com), a leading 100% employee-owned company with diverse business interests in the manufacturing, distribution, retail, financial services and mission critical technology industries. All products are manufactured in the USA, serving customers worldwide.

### 1. LEER

- **Your Partner in Temperature-Controlled Storage Solutions**  
With over 70 years of industry expertise, innovation and focus on manufacturing excellence, we're confident our products feature industry leading efficiency, reliability, durability and longevity — delivering an unbeatable value to you and your company.
- **Made in Wisconsin, USA**  
Manufactured under a strict quality control program to ensure our products are delivered right the first time, right every time.
- **We're With You Every Degree of the Way**  
As an employee owned company, our success depends on your success. We stand behind our products and are dedicated to your success by providing free lifetime technical support. Our engineers and customer service teams are available to help, whether you're a potential new customer or a lifetime customer of Leer.
- **Purpose-Built, Turnkey Solution**  
Road ready from day one, we fully engineered this refrigerated trailer with the single-minded purpose of cold transport.

### 2. INDUSTRY LEADING DOORS

- **Large Door Openings**  
We've got some of the largest door openings in the game, making loading and unloading easy, even with full pallets.
- **Patented Construction Features**  
All steel construction with no fasteners, welding, or adhesives. The offset seams are precision machine formed, resulting in water-tight lock-form seams that create a stronger and more durable unit. This increases longevity by reducing moisture penetration into the insulation.
- **3" Insulation Inset Doors**  
The 3" inset doors provide greater insulation, reduce condensation, and improves the performance of machine.
- **Enhanced Door Frames**  
The door frame is a combination of both rigid and flexible PVC, which provides better protection against dirt and water in the field and foam exposure during the manufacturing process.
- **Rust Resistant Steel Doors with Premium Paint**  
Galvanized steel doors top coated with a premium exterior grade white paint, which provides resistance to scratches, scuffs, dents, and protection from the outside elements.

### 3. FINISHING TOUCHES

- **Rugged Trailer**  
Strong steel frame built to handle the bumps of over-the-road travel to keep your operations running smooth.
- **Rain Shield**  
All doors contain a rain shield to divert water from dripping onto the doors or into the unit.
- **Chrome-Finish Hardware**  
All hardware, including hinges and handles, have a chrome-finish to provide greater, strength durability, resistance to corrosion, and aesthetics.
- **Rust Resistant**  
The exterior of the trailer unit is finished with a two-part primer/top coat all-weather paint to provide superior resistance to humidity, corrosion, and other weather conditions.

### 4. REFRIGERATION & INSULATION

- **Adjustable Multi-Temp Units**  
Keeps your products at just the right temp — from -4°F to +40°F. Set your temperature on the go and haul whatever you need with the flexibility that suits your business.
- **Superior Insulation**  
Thick, foamed-in-place insulation to maintain temperature, tested in up to 120°F ambient environments.
- **High R-Values**  
Increased insulation to reduce heat infiltration into the unit. There's 2.5" of high-performance, eco-friendly, insulation in the ceiling and walls, and 3" of insulation in the floor.

PRODUCT SPECIFICATIONS

Name & Standard Model Numbers	
Name:	4x8 Multi-Temp
Auto Defrost – R404a:	4x8 AD
Dimensions & Capacities	
Approx. Interior Cubic Feet:	148
Exterior Dimensions (L"xW"xH"):	96 x 48 x 75
Interior Dimensions (L"xW"xH"):	90 x 42 x 68
Door Opening Dimensions (W"x H"):	37.60 x 65.60
Dimensions w/ Trailer (L"xW"x H"):	See 4x8 w/ Trailer
Operating Temperature	
(X°F - X°F):	-4 to +40
Factory Presets:	Cooler, Freezer, or Ice
Adjustable Temperature:	Yes
Control:	Electronic
Electrical	
Voltage (V/Hz):	120/60
Min. Circuit Required (Amps):	20
Trailer	
Trailer Available:	Upon Request
GVWR (lbs):	See 4x8 w/ Trailer
Axels:	See 4x8 w/ Trailer
Payload:	See 4x8 w/ Trailer
Other	
Compressor (HP):	1
Compressor Type:	Scroll Compressor
Auto Defrost Fan Type:	ECM Fans
Refrigerant:	R404a
Certifications:	NSF, UL, ULC

1. Depth Does Not Include Compressor  
2. Add 3.5" to Depth for Handle & Hinges  
3. Trailer storage capacities are approximate and may vary due to type of ice, bag size, and methods of loading.

## LEER PRODUCTS

### ICE MERCHANDISERS

For ice manufacturers, retail store owners, and special sites alike, Leer is the industry leader in innovation, quality, lead-time and reliability across our lineup of customizable indoor, outdoor, international and specialty Ice Merchandisers.

### REFRIGERATED REACH-IN STORAGE

For Restaurant, C-Store, and business owners alike looking to maximize their revenue generating space, Leer's Refrigerated Reach-In Storage units offer a versatile solution to their storage needs by offering customized weatherproof units that feature small footprints but large capacities.

### ICE VENDING MACHINES

Where there's a need for ice isn't always convenient enough for a whole store. For remote locations, and services without 24/7 employees, Leer's Ice Vending Machines offer the most affordable, reliable and simplest solution to Ice Merchandising needs.

### WALK-IN COOLERS AND FREEZERS

For Foodservice, Retail, Healthcare, Industrial, Scientific, and Specialty applications, Leer offers custom Walk-In Coolers and Freezers across our Soft Rail and Wood Rail product lines. With exceptional build quality and highly efficient panels, there's a Leer solution for virtually any application.
